Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments: No interviews were conducted.

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The survey occurred in June 2005 and no WBCR was observed. The stream did not meet the maximum or average depth criteria at either of the 2 sites evaluated. The downstream site was at the mouth and should be the deepest part of the stream. Due to inadequate depth of the stream, the committee recommends that the WBCR designation be removed.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive
